

POST-GRADUATED COURSE IN ADVANCED ORAL IMPLANTOLOGY, TISSUE REGENERATION AND

ORAL REHABILITATION

FOURTH WEEK

(16-22 JUNE 2018)

	DAY 1	DAY 2	DAY 3	DAY 4	DAY 5	DAY 6	DAY 7
08:00	Zirconia implants: theoretical concepts and Hands-on	Hands-on: immediate load in synthetic model, overdenture and single implant	Guided surgery Theoretical concepts	Short, narrow, extra-wide dental implants: Theoretical concepts	Tilted dental implants: Theoretical concepts	Zygomatic implants Theoretical concepts	Zygomatic implants complications Theoretical concepts
10:30	Coffee Break	Coffee Break	Coffee Break	Coffee Break	Coffee Break	Coffee Break	Coffee Break
11:00	Zirconia implants: Demonstrative surgery	Hands-on: immediate load in synthetic model, overdenture and single implant	Guided surgery Theoretical concepts	Short, narrow, extra-wide dental implants: Clinical Cases Discussion	Tilted dental implants: Theoretical concepts	Zygomatic implants Theoretical concepts	Zygomatic implants complications Theoretical concepts
13:00	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch	Lunch
15:00	Immediate load: techniques	Immediate load: demonstrative surgery	Guided surgery demonstrative surgery	Short, narrow, extra-wide dental implants: Hands on synthetic model	Tilted dental implants: Hands-on synthetic model	Zygomatic implants Hands on synthetic model and clinical cases discussion	Zygomatic implants complications Hands on synthetic model and clinical cases discussion
16:30	Coffee Break	Coffee Break	Coffee Break	Coffee Break	Coffee Break	Coffee Break	Coffee Break
17:00 19:00	Immediate load: techniques	Immediate load: rehabilitation	Guided surgery Hands on	Short, narrow, extra-wide dental implants: Demonstrative Surgery	Non conventional dental implants Theoretical concepts and Hands on synthetic model	Zygomatic implants Hands on synthetic model and clinical cases discussion	Zygomatic implants complications Hands on synthetic model and clinical cases discussion
