

INTENSIVE COURSE IN IMPLANTOLOGY

	DAY 1	DAY 2	DAY 3	DAY 4	DAY 5	DAY 6	DAY 7	DAY 8
08:00	Anatomy	Anaesthesia and Pharmacology	Introduction to biomaterials Introduction to soft and hard tissue regeneration	Consensus and clinical proceedings: Incisions, grafts and sutures. Surgical techniques	Torque	Demonstration Surgeries	Surgeries	Surgeries
10:30	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>
11:00	Histology and Osseointegration Implant surfaces	Occlusion in Implantology	Prosthetic components	Consensus and clinical proceedings: Introduction to advanced techniques in oral implantology	Trauma in Implantology: Surgical risk factors	Cases planning using Nemotec software	Surgeries	Surgeries
13:00	<i>Lunch</i>	<i>Lunch</i>	<i>Lunch</i>	<i>Lunch</i>	<i>Lunch</i>	<i>Lunch</i>	<i>Lunch</i>	<i>Lunch</i>
15:00	Periodontology	Implants System	Impressions Techniques and materials	Consensus and clinical proceedings: Introduction to the concepts of early loading and immediate loading	Trauma in Implantology: Prosthetic risk factors	Cases planning using Nemotec software	Surgeries	Surgeries
16:30	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>	<i>Coffee Break</i>
17:00	Microbiology	Surgical technique Step by step	Impressions Techniques and materials	Hands-on – implant placement in synthetic models	Trauma in Implantology: General factors and discussion	Cases planning using Nemotec software	Surgeries	Surgeries
19:00	Ergonomics	Clinical Considerations
